BUSHNELL'S TROPHY CAM is only 5½ inches tall, has a trigger speed of less than 1 second, and can run up to 6 months on eight AA alkaline batteries or 12 months on eight AA lithium batteries. Two digital, night-vision models are available: standard or with built-in color viewer; both have high-quality 5MP full-color resolution photo capturing capabilities. Other features include: day/night autosensor; date and time stamp; PIR sensor (motion activated to 45 feet); multi-image mode (one to three images per trigger); programmable video (1-60 seconds); invisible 24 LED night-vision flash (45-foot range); and SD card slot (card not included). Contact Bushnell at: (800) 423-3537. (\$207.99 standard; \$249.99 w/color viewer)

The **RANGERGRIP 178** from **WENGER** (maker of the Genuine Swiss Army Knife) measures 5.1 inches when closed and has a textured, non-slip rubber inlay handle for safety. User-friendly tools include: one-handed-opening, 3.9-inch, 50

Wenger RangerGrip 178 Multi-Tool

percent serrated blade with safety lock; 4.2-inch double-cut wood saw; Phillips head screwdriver; patented locking screwdriver; cap lifter; wire stripper; can opener; reamer; and awl with sewing eye. Contact Wenger at: (800) 267-3577. (\$74.95)

Bushnell Trophy Cam

Devtron Scopecoat BinoBib

The **BINO BIB** from **DEVTRON SCOPECOAT** is constructed of high-quality neoprene laminated with nylon. Its simple design safeguards binoculars from dings, scratches, dust and dirt, and the moisture-absorbing neoprene helps draw condensation away from

your optics. Because of the elasticity of the neoprene, BinoBibs stay in place while they're in use without the aid of snaps, zippers or Velcro. Available in black, Natural Gear camo, dark earth or coyote brown, in several sizes to fit almost any optics. Contact Devtron Scopecoat at: (877) 726-7328. (\$25)

SCENT KILLER FIELD WIPES from **WILDLIFE RESEARCH CENTER** are made with a special Anti-Odor formula for your body that attacks odor at its source. Packaged conveniently in a re-sealable pack, they are

enriched with Vitamin E and Aloe to protect and sooth your skin. Scent Killer Field Wipes are ideal for use when a shower isn't available or when you need to quickly clean and deodorize. Contact: Wildlife Research Center at: (800) 873-5873. (\$7.99/24 pack)

Wildlife Research Center Scent Killer Field Wipes

OPTIFADE CONCEALMENT TECHNOLOGY was designed by a team from **W.L. GORE & ASSOCIATES** and a panel of scientific advisors who employed the latest research in animal vision science, camouflage science and computer technology to create a proprietary new concealment pattern. In contrast to camo that attempts to make a hunter closely resemble his environment, Gore's digital pattern aims to prevent the animal from recognizing a hunter as a predator, even if the hunter is detected. The Optifade pattern launch is exclusive to Sitka Gear ((707) 253-1122) and BowTech ((877) 447-0293). ■
